

Sheet 2

The map shows these losses are not everywhere, but are concentrated in states like **Texas**, **Illinois**, and **Pennsylvania**.

Sheet 1

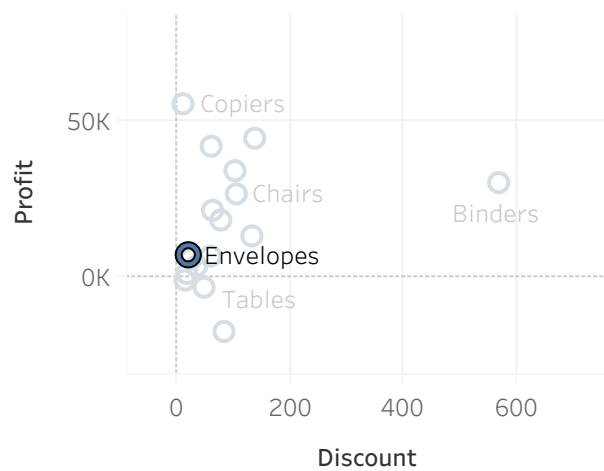

"This analysis shows that while the company is profitable, it is losing a lot of money on **'Tables'** and **'Bookcases'**.

Profit

Sheet 3

The scatter plot proves *why*: these unprofitable products are being sold at very **high discounts (30-50%)**, which is directly causing the losses."
